

During the 2018 ACM General Assembly we had 3 Chinese families with us, preparing delicious dumpling. Here is a group photo with them before their departure.

Former campers, 4 being in the same family and 2 are their relatives, came to our Camp Site for a fellowship. We keep on praying for them individually!

Our 2017 ACM General Assembly being held on our Camp Site with a special thanksgiving for the 2,194 sq. m Site granted to us free by the City government. Here is a precious group picture together.

An Ethiopian girl with her counterpart a Chinese girl during our 2018 General Assembly held at the rented Ayat house.

Our ChangHe Suzuki, a 10-seater small truck, had the garage 2 main mechanics & 2 young workers with it after a major engine work about 3 months ago. How we desire in the days ahead, our Lord will provide for ACM a suitable medium-size vehicle, such as a Toyota coaster (used one of coaster model 10 years ago from Dubai), capable to seat 25 to 30 campers!

ACM not only serve the boys and girls, but always trying to reach out to their parents and other family members. Here is a nice photo of 2 boy campers with their mother and little sister.

On the 28<sup>th</sup> of April, the Ethiopian Easter (Fasika) Sunday, a delicious traditional lunch was eaten with Ato. Gashaw, the manager of ACM, and his small family.

Our prospective 6,500 sq. m Site facing east. Note the wooded green areas stretching far and wide. With its diminished sound level and serene scenery, the Site is truly conducive to a **youth camp** endeavor!

Our current 2,194 sq. m Site with the main bldg on the left and the formerly intended red-sand playground on the right. This Site, with its proximity to the main artery road to the Ethiopian north, we plan to develop into a **youth center** ministry.

From the view of 6,500 sq. m Site facing north-west, in spite of the vast Condominium blocks in sight, it still retains a distinct country-side flavor with its rolling hills and mountains!

19 years ago in 2000, on the same location as the left-side photo, with a fenced off area for playing soccer, horse-back riding and others, you could understand why we contracted 6,500 sq. m 5 years later in 2005 for our camping endeavor.

On the same Easter Sunday, in an Orthodox motor-cycle mechanic's home, this photo was taken of the 2 daughters, who have really grown after just a few years. *Do pray, without ceasing, for the millions upon millions in this land that they will come to know Christ the only way to God and salvation!*
